Reading a schedule a step-by-step guide

- Find the schedule for the day of the week and the direction you plan to travel.
- Find the timepoints nearest your origin and destination. Timepoints are shown on the route map. Bus stops may be between timepoints.
- Read downward in a column to see times when a trip will be at a given timepoint. Read the times across to the right to see when the trip reaches other timepoints. If no time is shown, that trip does not serve the area of that timepoint.
- The route number in the left column will appear in the sign above the windshield.
